OSHA Docket
Docket No. H-122
Room N-2625
200 Constitution Avenue, NW
Washington, DC 20210

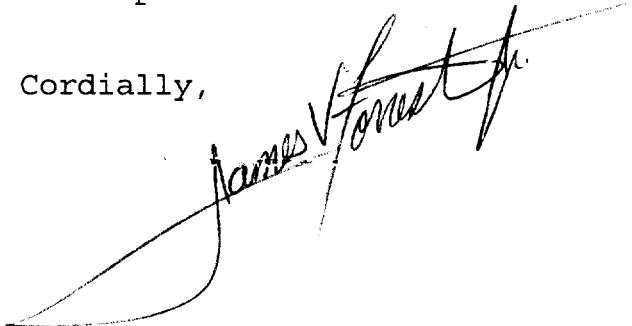

Dear Sir or Madam:

I am against this proposed smoking regulation by OSHA. I am a supervisor where I work. I agree that smoking should be banned in a closed environment. But in an open area, or in a restaurant, there should be designated smoking areas. In office spaces, there should also be designated smoking areas.

I think this proposal infringes on a individual's right to choose where to smoke. I show a lot of courtesy to non-smokers. I won't smoke if it offends someone. Most smokers I know act the same way.

OSHA should considers smokers' rights, as well as non-smoker's rights. The government should not try to force bans upon us.

Cordially,

A handwritten signature in black ink, appearing to read "James V. Forrester", is written over a horizontal line. The signature is stylized with a large, sweeping initial "J" and a long, horizontal stroke extending to the right.
